PRODUCT INFORMATION

OUR COMMITMENT

We only use premium materials and we don't sacrifice performance just to lower our costs. We promise we won't ever compromise quality and performance for profit. For quick access to all of our products, use the direct links below. Do not hesitate to contact us if you have any questions regarding their usage at 616.681.8120 or info@eliteabrasives.com.

COATED ABRASIVES FEATURES

Coated abrasives come in many configurations to meet a variety of demanding application requirements. For everything from stock removal to finishing, grinding, flash removal, blending, leveling and polishing. We use only premium materials which asserts ultimate performance due to faster removal rates, long life, increased productivity and less downtime.

NON-WOVEN ABRASIVES FEATURES

Our innovative line of Non-Woven products are used for surface preparation, stripping, deburring, rust removal, blending, cleaning, finishing and polishing. Our products are engineered with premium materials which are designed faster removal rates and long life, which in turn increases productivity and reduces downtime.
